#### TO DISBURSE \$4,303,970 NEW ORLEANS, Aug. 2.-Four-

Funds Derived From Ten and Four-Cent Tax to Be Distributed.

Approximately \$4,303,970 is to be disbursed by the Department of Education, as indicated by present estitendent, announced yesterday. The amount disbursed for the session of 1919-20 was \$3,221,513. The increase in State school funds for the session of 1929-21, as compaged with the previous year will be \$1,082,457, or an increase of 23,3.5 per cent.

These estimates include the funds derived from the 10 and 4 cent tax, the cash appropriation by the Assembly of Virginia, and the funds for yocational education. Isseed upon the new school census, the amount distributed by the State board represents a little more than \$6 per capita tendent, announced vesterday.

Stated.

The department mailed out to the various counties and cities of the Commonwealth estimates of amounts to be received from State funds yesterday. Owing to increased appropriations by the last Assembly, the total amount from the State for school purposes shows a large increase.

priations b the last Assembly, the total amount from the State for school purposes shows a large increase.

Says \$15,699 Needed.

"In order to operate a highly satisfactory system of schools in the State of Virginia, a maximum of \$15,090,000 would be required." Mr. Hart said. "The report of the Education Commission made in 1919 indicates that no less a sum could possibly produce the type of education which Virginia ought to have. It was proposed in this report that this large sum should come from three sources; about one-third from county taxes, and one-third from the State and county taxes, or two-thirds of the entire amount, should be devoted to instruction, leaving one-third for the cost of other operations and maintenance," according to Mr. Hart.

"It is impossible, for the current session, for counties and districts to raise their portion of the fund necessary to carry the burden of a satisfactory school system, because of the limitation in the present constitution, he said. This limitation provides that the aggregate county and district taxes shall not exceed five mills, or 50 cents on the \$100 valuation.

"Tax is inadequate.

"With the present valuation of the courthouse yard. The mob wrecked the steel cell to get at the regro."

"With the present valuation of property in a large number of counties in the Commonwealth the maximum local tax does not produce anything like an adequate fund.

"The Assembly of 1918 and the Assembly of 1920 passed an amendment to the Constitution, Section 136, Article 9, removing the limit of 50 cents and providing for a limit to be fixed by law. The people of Virginia will yote upon this amendment at the November election. Its passage is an election of the courthouse cell to get at the negro. The lynching followed announcement by the same of a full confession made to the grand jury now in sequence of the courthouse cell to get at the negro. The lynching followed announcement by the lynching followed announcement by the second control of the steel to get at the negro.
